12TH ANNUAL LIMOUSIN AND LIM-FLEX BULL SALE 3.26.2018

Kist Livestock, Mandan, ND
5:00 p.m. CST

Online bidding available LiveAuctions.TV

From our outfit to yours, we cordially invite you to our 12th annual Limousin and Lim-Flex bull sale to be held Monday March 26 at 5:00 pm CST at Kist Livestock, Mandan N.D.

We once again feel very optimistic about the set of bulls we have brought to town for your evaluation. We feel it is very important to propagate cattle with above breed average EPDs. As you flip through our catalog

you will notice our bulls are bred for modest birth weights, explosive growth, and cattle that have the ability to sire calves that will hang a quality carcass. We have made great strides in our cow herd to improve marbling, fleshing ability and easier doing cattle, and we think you will see it in the quality of this set of bulls. As you study the bulls you will notice most of our bulls rank in the top 25% or greater for the breed in traits of economic relevance.

We will have bulls in the offering that fit the needs of most cattlemen. You will find bulls that are bred for calving ease, growth, maternal, and carcass quality. We are offering purebred, high percentage Limousin, and Lim-Flex bulls. We have more high percentage Lim-Flex and Limousin bulls in this year's offering than we've had in previous years. These bulls are bred to sire calves that have the ability to top the markets.

Our primary focus is to serve the needs of the commercial cattlemen. We started out in the commercial cow-calf business and it is still a major portion of our ranching operation today. We feel that we truly understand the genetic needs of our fellow cattlemen. As a result, we try to breed cattle that will thrive in today's mainstream markets.

The 2017 year was challenging for most ranchers in the Northern tier of the U.S. We faced a drought and above average temperatures throughout the summer. There was a lot of uncertainty in our local markets and some ranchers were forced to cut back on their numbers as a result. As I write this letter, there has been an uptick in the feeder cattle market, calves are trading mostly higher, and with new foreign trade markets opening up, I think we will continue to move in a positive direction in 2018. With that said it is increasingly important to select breed leading genetics. Reputation cattle with modest birth weights, high growth, the potential to perform and have the capability to hang a Choice carcass still command a premium in today's market place.

The bulls have been semen tested, ultrasound scanned, and sell with a complete set of performance records and EPDs. All bulls sell with a first breeding season guarantee. Volume buyers are crucial to our success and we will continue to offer volume bull buyer discounts. We also offer free delivery within North Dakota and surrounding states, or bring your trailer with sale day and receive a \$50 per head discount, if bulls are hauled home sale day.

Videos of all the bulls are available on our website, www.HagerCattleCompany.com. You are also welcome to stop by the ranch and view the sale offering any time, prior to March 23. Beginning Saturday March 24 the bulls will be in the yards at Kist Livestock for your appraisal. For more information, contact us or an affiliated sale staff listed in the catalog.

New to this year's sale we will be offering a set of 60 outstanding commercial open Lim-Flex heifers. This group of heifers came right of the top of our commercial herd.

We will once again sell the bulls in catalog order. Thanks for your interest in our program and we look forward to seeing you Monday March 26th.

~Austin, Leah Bailee, Pitch, Tripp and Remmi Hager

Time and Location:

Monday, March 26, 2018 • 5:00 p.m. CST
Kist Livestock • Mandan, North Dakota

Sale Day Phones:

Austin Hager(701) 626-2345
Kist Livestock.....(800) 732-1163

Special Guests:

Kirby Goettsch, Farm & Ranch Guide(605) 380-3939
Tony Heins, Cattle Business Weekly(701) 400-4435
Vern Frey - Frey Livestock
Sales & Service, Inc.....(701) 721-0344
Andy Rest, NALF Regional Manager(406) 670-5678
Mark Anderson, NALF Executive Director(970) 590-9576

Auctioneer:

Chisum Peterson.....(605) 730-4214

Accommodations:

A block of rooms is available at the Comfort Suites, 929 Gateway Ave, Bismarck, ND 58503, 701-223-4009. To receive the discounted group rate, reserve rooms by March 22.

Food and refreshments will be served at the sale.

Additional Information:

Videos, yearling weights, scrotal measurements and ultrasound data will be available on our website prior to the sale and on sale day. If you wish to purchase livestock insurance on your bulls or to purchase semen from HCC sires, please contact Mark Smith of Grassroots Genetics and Consulting, (515) 229-5227.

Health:

Inforce 3, First Defense, Bovi-Sheild Gold 5, One Shot, 7 Way, Sommus, Dectomax Injectable, Clean-Up. Johnes tested cattle herd since 2012; all bulls selling are from a negative tested dam. Herd health: Dr. Kristie Best - 701-537-0502.

Guarantee:

All bulls are semen tested and guaranteed to be breeders. Scrotal measurements will be available by March 15.

Liability:

Each animal will be the buyer's risk as soon as sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither owner nor sales management can be responsible for accidents, but every effort will be made to provide for the safety and comfort of those attending the sale.

Terms:

Terms of the sale are cash unless prior credit arrangements are made between buyer and seller. Settlements are to be made immediately after the conclusion of the auction. All cattle sell under the recommended terms and conditions of the North American Limousin Foundation. You may request a copy of those terms from Austin Hager or the sale consultants, or go to www.NALF.org to view online.

Transportation:

Free delivery in North Dakota and surrounding states. Delivery beyond will be done in the most cost efficient manner possible.

Announcements:

Announcements made sale day will take precedence over printed material in catalog.

Absentee Bids:

Mailed or telephone bids will be handled in the most confidential manner. If you are unable to be present to place your bids, please feel free to contact Hager Cattle Company.

Volume Purchases:

3% discount on 3 head of bulls.
Up to 10% discount on 10 head of bulls or more.

\$50 credit per bull if buyer hauls home sale day.

Online Bidding:

LiveAuctions.tv will provide real time bidding.

Live audio and video will allow buyers to bid on animals just as if they were present at the sale. A buyer's account must be created prior to the sale. Go to www.LiveAuctions.tv or contact Margo Schmerge directly at 937-515-1194 or Margo@LiveAuctions.tv

Lot 1- Member of 2018 Denver Pen
 AHCC 93E is a high percentage Lim-Flex with tons of grow and performance, he is as naturally thick from end to end as you can make one. Visually speaking he is as long as a freight train, ties into a smooth shoulder and offers an abundance of bone, mass and shape. Numerically lot 1 ranks in the upper 35% of the breed for growth, CW, and \$MTI and top 25% for marbling, he pushed the scale down at 806lb/205 ratio 106. If your bull buying requirements for big time growth, power, muscle and Limousin appeal, don't miss this opportunity sale day.

Lot 2- Member of 2018 Denver Pen
 AHCC 383E is a big time herd bull prospect, high percentage Homo Black, Homo Polled Lim-Flex. On paper this bull is super impressive ranking in the 15% or better for 6 industry relevant traits. He ranks in the upper 10% for CED, 15% for BW, and still holds together equally as impressive numbers for growth (15% for WW and YW) and combines all that together with an outstanding marbling EPD and \$MTI value. Actual performance values are outstanding ratioing BW (94.9), WW (112) with a staggering 205 day wt of 851 lbs. Phenotypically 383E is super big bodied, easy fleshing, lose hided, and possess as much rib shape and volume as any bull in the offering.

Lot 3 - Member of 2018 Denver Pen
 Homo Black, Homo Polled.
 AHCC Epic Force is as impressive in person as he is on paper, top 5% for SC; 10% for WW and TM; 15% for \$MTI; 20% for YW and MB; 25% for MK and 30% for CW. That is eight traits in the top 30% or better for the breed. Along with that he recorded an 790-pound adj. 205-day weight (104 ratio). In person he is moderate framed, really big bodied, bold sprung, easy fleshing, and combines all that with extra natural thickness, shape and design. AHCC 287E is a cattleman's type of bull, he is the kind to sire cattle that grow and grade, along with siring females that are the front pasture kind.

Lot 4
 Outstanding 2-year-old Lim-Flex. Modest birth weight, adequate growth, coupled with marbling and \$MTI ranking in the top 25% of the breed. His dam is a model Mags Unheard Of daughter with a near perfect udder and small teats. ADJ. 205 day weight of 794 lbs. (105 ratio).

8	1.8	75	118	24	6	0.82	17	0.08	36	0.09	-0.01	51.67

Scurred/Horned, purebred bull with power. Perhaps the most performance oriented bull in the entire offering. He crushed the scale down at weaning to 845 lbs. (ratio: 111). He is ultra deep made, bold sprung, really thick from end to end and carries plenty of muscle shape and mass. If I was looking to add a bull to my herd bull battery with rugged performance this is the bull I would be looking at. He supports great growth numbers in the upper 30% or better of breed average and has the actual performance stats to back it up. Don't pass this bull up due to not being smooth polled, he will sire cattle that grow and perform.

Homo Pld, 5/8 Lim-Flex by AHCC Barn Burner and out of a tremendous Predestined cow with a near perfectly constructed udder. AHCC 896E is a cattleman's bull, he is deep made, rugged in his design, ultra-thick from behind and most importantly genetically superior. On paper he reads right, high growth, high marbling, and an \$MTI of 67.94 ranking in the top 4% of the breed. Numerically he ranks near the top of the breed and backs the numbers up with true performance. If you're searching for a bull with growth, maternal, and marbling who still maintains Limousin character, this guy gets it done.

Red, Homo Pld, 50% Lim-Flex out of our big time performance donor cow AHCC Dakota Luvly 594R. She ranks in the top 3% of the breed for growth, milk and maternal. This ET son by Redemption is no slouch, he ranks in the top 15% for WW, 20% YW and MK. Visually speaking this bull is super long bodied, carries extra substance of bone and has the physical attributes to sire calves with added growth, length and frame. For proven growth genetics that work, look to lots 31 and 33 sale day.

Scurred, red, 5/8 Lim-Flex son of AHCC Cowboy Kind, who topped our bull sale two years ago selling to Linhart Limousin. The Cowboy Kind progeny are chock full of performance with added bone, muscle and natural thickness. AHCC 863E is a large outlined bull with added frame, length of body and fleshing ability. On paper he presents a highly useful set of numbers, top 3% WW, 15% YW, Mk, CW and \$MTI; 25% MB. His dam is a heavy milking daughter of LVLS Secret Weapon and it shows as this bull weaned off at a staggering 887 lbs. (ratio: 117).

Red, Homo Pld, ET bull by Browns Redemption. His flushmate brother sells as lot 31. If red high performance, high maternal genetics are on your radar look no further. AHCC 0591E hammered the scale down at 923 lbs. (ratio: 107). WW and YW top 15%, TM top 10%. We could write a book on the producing ability and genetic impact his dam AHCC 594R has had on our program, she has raised numerous herd sire, that have worked in programs all over North America, and her genetic influence is flourishing with over 10 daughters in production in our herd. For reliable, performance oriented genetics look no further.

Awesome red bull by CJSL 2238, I absolutely love the phenotype of this bull, super soft made, deep ribbed, deep flanked, loose hided and extremely easy fleshing. He recorded a modest BW of 84 lbs. and cranked the scale down at 902 lbs. (ratio: 116). He ranks in the top 30% or higher for growth, maternal, marbling and \$MTI. Breeders take notice, this bull could really soften up a set of calves, add growth, quality grade, and sire a set of females that make you proud.

Scurred. 3/4 brother in blood to lot 50, AHCC 4793E is a phenotypic stand out. He is moderate in his frame, super deep bodied from fore to rear, bold sprung, easy fleshing and ultra thick from behind. I really appreciate this bull for his flawless type and kind. He ranks in top 15% for MB and \$MTI. He recorded a 78 lb. actual BW and was the #1 ratio bull for WW in our sire group by MAGS Aviator with a WW of 808 (ratio: 107). If you're in the market for a bull that will moderate frames add fleshing ability and quality grade look to lot 51.

His sire EBFL Ypsilanti has done a superb job of siring performance driven cattle for us the last several years. Several of the top growth bulls in our offering are sired by Ypsilanti and this guy is no exception. He offers a nicely balance set of EPDs ranking in the top 35% or greater for 7 traits. His 10-year-old dam is still going strong in production and HCC.

Phenotypically powerful bull by Ypsilanti, he offers an abundance of natural shape, dimension, depth and fleshing ability. This guy is a super active bull and will be able to cover some country and breed cows, as he has had a strong herd bull presence all winter long. On paper he provides a useable set of EPD's ranking high for milk and maternal.

AHCC 462E should be a calving ease bull, with a 79 lb. birth weight and a CED and BW EPDs in the top 15%. In person he is easy doing bull, soft sided, deep ribbed and displays plenty of natural thickness. On paper he also ranks very high for MK top 10% and marbling top 20%. If you're looking for a female maker and a bull who will have positive quality carcass attributes, Lot 92 fits the description.

26 HCC Limousin & Lim-Flex Bull Sale

107 LVLS 9066U Cow Family Influence Package

Opportunity abounds - folks here is one of the most intriguing lots to be placed on offer in the entire breed! What you're investing in is the LVLS 9066U cow family packaged in a unique 3-in-1 lot. One money takes all 3 items!

This specialty 3-in-1 lot consists of...

- 1 pick of the 2017 born spring open heifers by LVLS 9066U (6 females to choose from).
- 1 right to flush LVLS 9066U (Guarantee of 6 embryos maximum of 12, to sire of choice, expenses at buyers cost).
- 1 semen package of the hottest LVLS 9006U son, AHCC Earning Power 900E (15 units).

AHCC EARNING POWER 900E ET
Owned with Magness Land and Cattle

AHCC 6060D - LVLS 9066U daughter sired by EBFL Ypsilanti, purchased by Tubmill Creek

AHCC 6061D - LVLS 9066U daughter sired by MAGS Anchor, purchased by ATAK Limousin

As one of the most prominent donor cows in the entire Limousin breed, LVLS 9066U boasts a staggering 73 progeny recorded and with sales eclipsing \$325,000 to date. She currently has progeny and influence working in programs across the US and Australia, including prominent firms such as Magness Land & Cattle, Tubmill Creek Farms, Linhart Limousin, Pinegar Limousin, Lonely Valley / LV Bar Limousin, Coleman Limousin Ranch, ATAK Limousin, Fuchs Limousin, 4-H Limousin and Manali Limousin in Australia have secured genetics out this breed matriarch. We could write a book on the genetics and phenotypic strides this cow has made for us and it is evident in her progeny. And now is your opportunity to invest in an entire cow family package that boasts powerful, proven, performance genetics.

108 Top Cut Lim-Flex Open Commercial Heifers

We are not retaining any heifers from our commercial cow herd in 2018 due to the drought of 2017 and a shortage of grass. This is the top 60 cut out of over 200 heifers. They are May born Lim-Flex heifers, mostly sired by sons from MAGS Unheard Of and sons out of our most prolific donor cow LVLS 9066U. The heifers have been Bangs vaccinated and have also had Preg-Guard 10 shots. They will be weighing 800 lbs. This is an excellent set of heifers that will sell gate cut in groups of 5. High bidder has the opportunity to roll the pen and take all of the heifers.

What is a Lim-Flex®?

Limousin are the ideal complement to British-based cattle. With Lim-Flex® hybrids, there are genetic options to fit every need, from fullblood and purebred Limousin to Lim-Flex hybrids. Breeders can offer a just-right shot of Limousin to meet the needs of any crossbreeding program.

Lim-Flex stands for Limousin with muscle and efficiency, along with flexibility — the most significant strength of this powerful genetic blend:

- Flexible seedstock for simple, easily managed crossbreeding;
- Flexible market progeny that consistently hit dressing percent, yield and quality grade targets;
- Flexible females adapted for efficiency across a wide range of environments.

Progressive cow-calf producers recognize the value of hybrid vigor: 20% more pounds of calf weaned per cow exposed; 1.3 years of additional cow longevity; 30% greater lifetime production; and increased fertility.

LIM-FLEX 
Limousin x Angus Hybrid

FLEX stands for Limousin Efficiency Cross — the beef industry's answer to profitable system-wide production of case ready products. NALF's UltraMate Xbreeding System outlines how to use Limousin and Lim-Flex seedstock on different types of commercial cows to hit end-product and maternal targets.

Registered Lim-Flex are backed by documented pedigrees, EPDs, and genomic data provided by the North American Limousin Foundation.

Dr. Jim Gosey, beef specialist emeritus at the University of Nebraska, states, "A carefully constructed British x Continental can come a lot closer to hitting most of the targets for reproduction, production, and end-product than any straightbred I'm aware of."

LIMOUSIN TODAY PROFIT TOMORROW

“We use Lim-Flex® bulls on our British-based cows because it allows us to achieve our goal of producing a high percentage of cattle that grade Choice, have higher yielding carcasses, while maintaining feed efficiency and uniformity.”

-Erik Roen, Sierra Valley Ranch, California

Hager Cattle Company EPD averages compared to other breed EPD averages.

(2016-2017 US born non-parents on common base, except Simmental and Sim-Hybrid which are averages for entire herdbook; Spring 2018 or Fall 2017 NCE)

Breed	CED	BW	WW	YW	MK	CEM	ST	YG	CW	REA	MB
2018 HCC Sale Bulls	11	0.8	71	106	28	7	7	-0.01	33	0.30	0.17

The North American Limousin Foundation (NALF) uses all available information to predict an animal's EPD. This information includes: individual performance, pedigree, progeny and grand progeny performance, and genomic information. All this information is combined into one, easy to use, number that helps producers make genetic improvement in their herd.

Since the spring of 2015, NALF joined 11 other U.S. and Canadian breed associations to form the largest international multi-breed cattle evaluation in the world through International Genetic Solutions (IGS). This allows growth and carcass EPDs for Limousin and Lim-Flex® (Limousin x Angus hybrid) animals to be directly compared with Red Angus, Simmental, Gelbvieh, Shorthorn, Maine Anjou, and Chianina animals (and all their hybrid animals). This makes selection decisions easier for commercial producers.

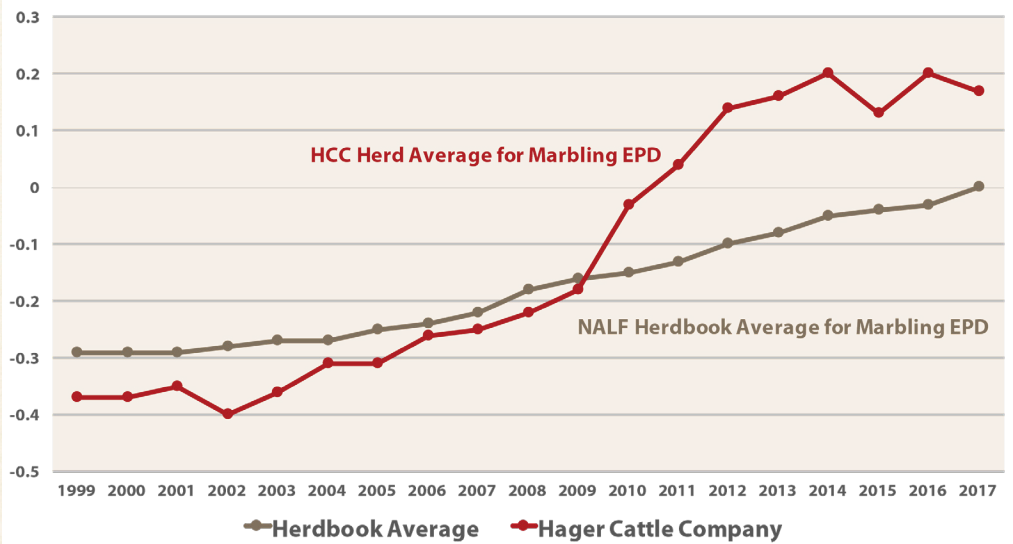

The charts to the right compare the genetic trend lines for Hager Cattle Company verses the herdbook average for the North American Limousin Foundation. As you can see, AHCC genetics far exceed the herdbook averages for Yearling Weight and Marbling EPDs, plus \$MTI.

We focus on selecting for these traits, which have economic importance for our customers. Investing in AHCC bulls will add pounds and carcass value to your calves.
