13th Annual **LIMOUSIN & LIM-FLEX BULL SALE** **Monday, March 25, 2019** **Kist Livestock, Mandan, ND • 5:00 p.m.**

Selling 118 Limousin & Lim-Flex Bulls.
Plus 60 Lim-Flex commercial open heifers.

From our outfit to yours, we cordially invite you to our 13th annual Limousin and Lim-Flex bull sale to be held Monday, March 25 at 5:00 p.m. CST at Kist Livestock, Mandan N.D.

We once again feel very optimistic about the set of bulls we have brought to town for your evaluation. We feel it is very important to propagate cattle with above breed average EPDs. As you flip through our catalog you will notice our bulls are bred for modest birth weights, explosive growth, and cattle that have the ability to sire calves that will hang a quality carcass. We have made great strides in our cow herd to improve marbling, fleshing ability, and produce easier doing cattle. We think you will see it in the quality of this set of bulls. As you study the bulls, you will notice most of our bulls rank in the top 25 percent or greater for breed averages in traits of economic relevance.

We will have bulls in the offering that fit the needs of most cattlemen. You will find bulls that are bred for calving ease, growth, maternal, and carcass quality. As well, we will offer bulls that are purebreds, high percentage Limousin, and Lim-Flex. We have more high percentage Lim-Flex and Limousin bulls in this year's offering than we've had in previous years. These bulls are bred to sire calves that have the ability to top the markets.

Once again, 2018 was a challenging year. We have seen a second year of drought in our region. Our county, McHenry County, was the driest county in the state in 2018. It was taxing getting enough winter feed gathered up. As we sit here and write this letter it is -25 degrees with wind-chill of -40 below. February 2019 will probably go down in record as the coldest month. With all of the environmental stresses that we endure with this ranching lifestyle, it is critically important to select cattle that can withstand and perform above average in these harsh conditions we endure in the northern plains. Our cattle are bred to perform and excel in these circumstances. It is critically important to select breed-leading genetics. We select for modest birth weights, high growth, performance-driven cattle with the genetic potential to perform and have the capability to hang a Choice carcass on the rail. Reputation cattle that have the ability to grade still command a premium in today's market place.

Our primary focus is to serve the needs of the commercial cattlemen. We started out in the commercial cow-calf business

and it is still a major portion of our ranching operation today. We feel that we truly understand the genetic needs of our fellow cattlemen. As a result, we try to breed cattle that will thrive in today's mainstream markets.

The bulls have been semen tested, ultrasound scanned, and sell with a complete set of performance records and EPDs. All bulls sell with a first breeding season guarantee. Volume buyers are crucial to our sale's success and we will continue to offer volume bull buyer discounts. We also offer free delivery within North Dakota and surrounding states. Or bring your trailer with on sale day and receive a \$50 per head discount, if bulls are hauled home sale day.

Videos of all the bulls are available on our website, www.HagerCattleCompany.com. You are also welcome to stop by the ranch and view the sale offering any time prior to March 22. Beginning Saturday March 23, the bulls will be in the yards at Kist Livestock for your appraisal. For more information, contact us or an affiliated sale staff listed in the catalog.

Once again, we will be offering a set of 60 outstanding commercial open Lim-Flex heifer calves. This group of heifers came right of the top of our commercial herd.

The bulls are cataloged in sale order. Thanks for your interest in our program and we look forward to seeing you Monday, March 25th.

~Austin, Leah Bailee, Pitch, Tripp and Remmi Hager

Time and Location:

Monday, March 25, 2019 • 5:00 p.m. CST
Kist Livestock • Mandan, North Dakota

Sale Day Phones:

Austin Hager(701) 626-2345
Kist Livestock.....(800) 732-1163

Special Guests:

Kirby Goettsch, Farm & Ranch Guide(605) 380-3939
Tony Heins, Cattle Business Weekly(701) 400-4435
Will Bollum, Western Ag Reporter(507) 244-0833
Andy Rest, NALF Regional Manager(406) 670-5678
Mark Anderson, NALF Executive Director(970) 590-9576

Auctioneer:

Chisum Peterson.....(605) 730-4214

Accommodations:

A block of rooms is available at the Comfort Suites, 929 Gateway Ave, Bismarck, ND 58503, 701-223-4009. To receive the discounted group rate, reserve rooms by March 17.

Food and refreshments will be served at the sale.

Additional Information:

Videos, yearling weights, scrotal measurements and ultrasound data will be available on our website prior to the sale and on sale day. If you wish to purchase livestock insurance on your bulls or to purchase semen from HCC sires, please contact Mark Smith of Grassroots Genetics and Consulting, (515) 229-5227.

EPDs:

All EPDs have been provided by the North American Limousin Foundation and were pulled on February 22, 2019. NALF updates EPDs on a weekly basis, which may cause minor changes to the EPDs presented in this catalog.

Health:

Inforce 3, First Defense, Bovi-Sheild Gold 5, One Shot, 7 Way, Sommus, Dectomax Injectable, Clean-Up. Johnes tested cattle herd since 2012; all bulls selling are from a negative tested dam. Herd health: Dr. Kristie Best - 701-537-0502.

Guarantee:

All bulls are semen tested and sell with a first breeding season guarantee. If the cattle that you purchase at our sale fail to meet your expectations or go down during the breeding season, we will provide you with a replacement bull or give you full credit towards next year's sale, once we receive the returned bull. We will work together on arrangements to transport the bulls from you to us in the most economical way for both parties. This guarantee expires after the first breeding season.

Yearling weights and scrotal measurements will be available by March 15.

Transportation:

Free delivery in North Dakota and surrounding states. Delivery beyond will be done in the most cost efficient manner possible.

Liability:

Each animal will be the buyer's risk as soon as sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither owner nor sales management can be responsible for accidents, but every effort will be made to provide for the safety and comfort of those attending the sale.

Terms:

Terms of the sale are cash unless prior credit arrangements are made between buyer and seller. Settlements are to be made immediately after the conclusion of the auction. All cattle sell under the recommended terms and conditions of the North American Limousin Foundation. You may request a copy of those terms from Austin Hager or the sale consultants, or go to www.NALF.org to view online.

Announcements:

Announcements made sale day will take precedence over printed material in catalog.

Absentee Bids:

Mailed or telephone bids will be handled in the most confidential manner. If you are unable to be present to place your bids, please feel free to contact Hager Cattle Company.

Volume Purchases:

3% discount on 3 head of bulls.

Up to 10% discount on 10 head of bulls or more.

\$50 credit per bull if buyer hauls home sale day.

Online Bidding:

LiveAuctions.tv will provide real time bidding.

Live audio and video will allow buyers to bid on animals just as if they were present at the sale. A buyer's account must be created prior to the sale. Go to www.LiveAuctions.tv or contact Margo Schmerge directly at 937-515-1194 or Margo@LiveAuctions.tv

Breeders take notice. Lot 1 is a phenomenal son of our most prominent donor cow LVLS 9066U. He also happens to be a full sib to AHCC Earning Power 901E. His full brother caught the attention of many astute cattlemen in Denver and ended up being one of the highest selling bulls in the Limousin breed in 2018. He has maternal sibs working in the most elite seedstock and commercial operations all over the USA. AHCC Anchor 901F has set the bar high; genetically he is second to none, phenotypically he is pleasing to the eyes. If you are looking for proven predictable genetics that stack up in our breeding program year in and year out, this bull certainly covers all of the bases. Full brothers sell as lots 4 and 47. Selling 2/3 interest and full possession.

Lot 2: Phenotypic standout since birth. AHCC Barn Burner 217F charts an outstanding set of growth numbers. He ranks in the top 15% for WW; top 10% YW; top 20% MK; top 5% TM; and top 4% CW. He is a stout made, high-performing individual. He is excellent in his bone work, long in his skeletal design, and packs an abundance of natural thickness and shape. He recorded an outstanding weaning ratio of 122, smashing the scales down at 894 lbs. If you're in the market to add power, performance, and production to your next calf crop don't miss him sale day. Selling 2/3 interest and full possession.

Lot 2

Lot 3: AHCC 296F is super complete in his makeup and striking in his design. He possesses the right amount of depth, natural thickness, and muscle shape to make the most discriminating cattlemen take notice. Moderate birth, coupled with outstanding growth and maternal characteristics propel this bull into elite herd bull status. Mark your calendars for Monday, March 25 for the opportunity to purchase time tested proven genetics.

119 Top Cut Lim-Flex Open Commercial Heifers

Again this year, we have decided to not retain any heifers from our commercial cow herd. The drought conditions the past couple of years continues to cause a shortage of grass and feed. This is the top 60 cut out of over 200 heifers. They are May born commercial Lim-Flex heifers. The heifers have been Bangs vaccinated and have also had Preg-Guard 10 shots. They will be weighing 800 lbs. This is an excellent set of heifers that will sell gate cut in groups of 5. High bidder has the opportunity to roll the pen and take all of the heifers.

HCC Wins NALF Commercial Marketing Booster of the Year

Like so many seedstock producers, the roots of the Commercial Marketing Booster of the Year are planted firmly in the commercial cattle industry.

He was barely school age when his parents purchased their first Limousin bulls to use on commercial cows. They were looking for a way to add more pounds and muscle to their calves and improve the overall appearance of the resulting feeder cattle.

Before he was legal to drive, Austin figured if his dad was going to be buying bulls, he might as well buy them from his son. So, he sold his commercial cows and began building a Limousin female herd. He started with one cow and some 25 years later, he will be hosting his 13th annual bull sale.

The part of the world they operate in can get record breaking snowfalls, followed by scorching summer heat and devastating drought. Yet the diversified ranching and farming operation not only manages to survive,

but to thrive. Just like the Limousin and Lim-Flex cattle they are known around the country for producing.

He has often been heard saying, "If they don't work for me, they won't work for my customers." And that my friends, is anything but lip service.

Austin and Leah Hager, and their four children, Bailee, Pitch, Tripp and Remmi of Karlsruhe, North Dakota, live each day as a ranching family who make their livelihood from the animals they raise and the crops they cultivate.

They run on both deeded and leased land. In addition to managing the cow herd, they put up all of their own feed including their own hay as well as custom baling for area farmers.

They run both papered and commercial cattle in both a spring and fall calving season, and of course utilize the latest technologies including AI and embryo transfer. While they have exhibited cattle in the National Western Yards for years and raised their fair share of breeder bulls who have become popular semen sellers, the Hagers bread and butter continues to be raising bulls for the commercial cattlemen.

Therefore, mating decisions are designed to produce cattle with above breed average EPDs, modest birth weights, explosive growth, calm dispositions, spring of rib and the inherent carcass characteristics to produce calves that will hang a quality carcass. The bulls that make the cut end up in their annual bull sale, but only after they have been semen tested, ultrasound scanned, and documented with a complete set of performance records.

Article provided by the North American Limousin Foundation.

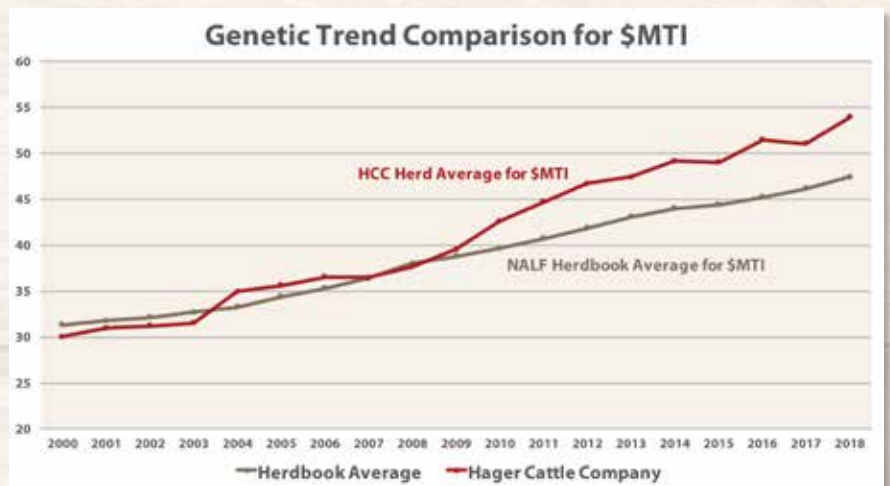

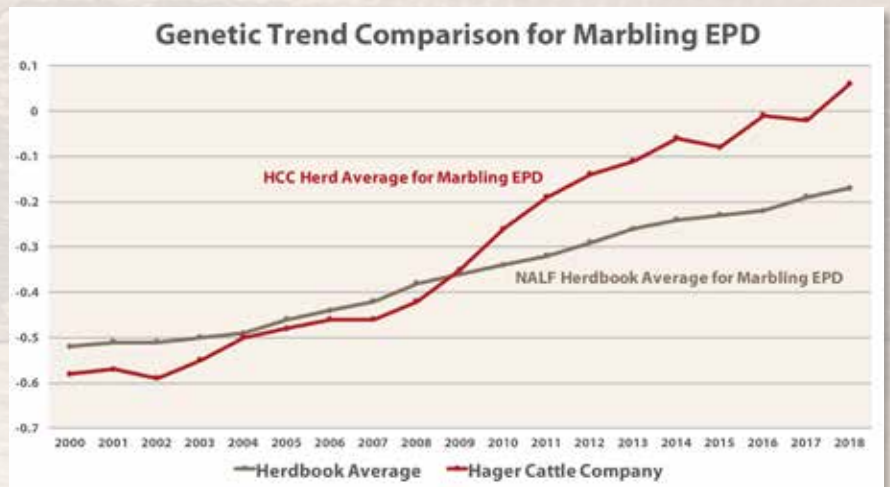

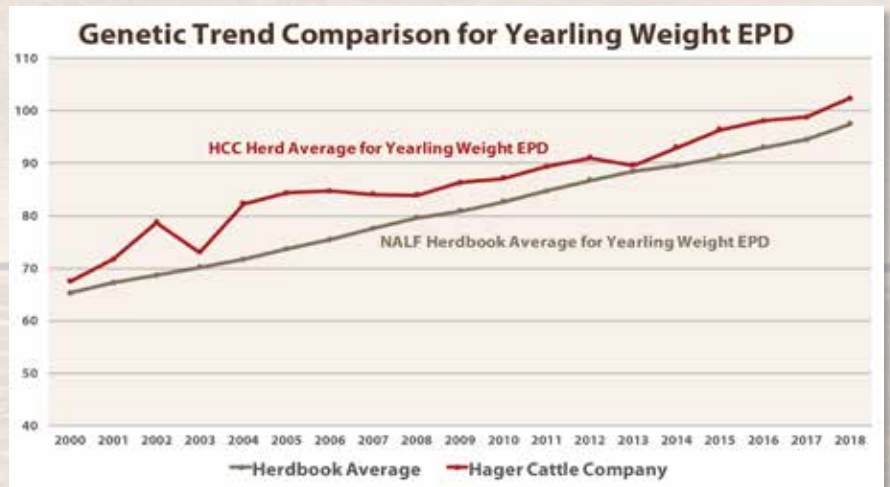

HCC EPD Genetic Trends

The North American Limousin Foundation (NALF) uses all available information to predict an animal's EPD. This information includes: individual performance, pedigree, progeny and grand progeny performance, and genomic information. All this information is combined into one, easy to use, number that helps producers make genetic improvement in their herd.

Since the spring of 2015, NALF joined 11 other U.S. and Canadian breed associations to form the largest international multi-breed cattle evaluation in the world through International Genetic Solutions (IGS). This allows growth and carcass EPDs for Limousin and Lim-Flex® (Limousin x Angus hybrid) animals to be directly compared with Red Angus, Simmental, Gelbvieh, Shorthorn, Maine Anjou, and Chianina animals (and all their hybrid animals). This makes selection decisions easier for commercial producers.

The charts to the right compare the genetic trend lines for Hager Cattle Company versus the herdbook average for the North American Limousin Foundation. As you can see, AHCC genetics far exceed the herdbook averages for yearling weight and marbling EPDs, plus \$MTI.

We focus on selecting for these traits, which have economic importance for our customers. Investing in AHCC bulls will add pounds and carcass value to your calves.

Hager Cattle Company EPD averages compared to breed EPD averages.
