HAGER HE CATTLE COMPANY 16th Annual Bull Sale - 4.12.22

6th Annual Bull Sale Tuesday, April 12, 2022

At the Ranch: 4651 2nd Ave. NE, Karlsruhe, North Dakota Sale time is 2:00 p.m. CST • Online Bidding at LiveAuctions.TV

Welcome to the 16th Annual Hager **Cattle Company Bull** Sale! We invite your appraisal of this year's Lim-Flex bull offering and look forward to seeing you at our ranch near Karlsruhe, North Dakota on April 12th.

It has been

another year where HCC genetics have stood up to the tests from Mother Nature. Two consecutive years of extreme drought have many questioning the viability of the cattle business and have caused us to take a close look at our ranching practices. We were forced to wean calves earlier than we normally would have due to the lack of grass. Some of our pastures we couldn't graze at all. We have also been limited in our supply of available feedstuffs. We know our customers are facing these same struggles. But, the bright spotlight has been the doabilty and longevity of our cattle to perform in these stressed environmental conditions. HCC cattle are raised in real-world situations, the same as those of our bull customers. They have been bred to sire calves with maternal stayability to survive tough conditions as well as hit the target in today's markets.

HAGER CATTLE

COMPANY

There are signs of optimism in the beef business. Demand for beef in the U.S. and around the globe remains very strong.

> 47th St NE -1 mile ⊣

> > HCC •

₹1 2nd

46th St NE

With the decrease in the nation's cow herd due to the extreme drought, I think we'll see market prices begin to rise. And these prices are going to continue to climb as more cattle are being replaced. With the strong cull market, now is a great time to cash in on those older herd sires and upgrade your bull battery.

This year's sale offering includes 97 Lim-Flex bulls. All bulls sell with a complete set of performance records and EPDs because Hager Cattle Company is enrolled in the Limousin Inventory Management Program (LIMS) through the North American Limousin Foundation. Many of the bulls have also been DNA tested for coat color and horn/polled status. Yearling weights, ultrasound data, and scrotal information will be available on a supplement sheet. All bulls sell with a first breeding season guarantee. Volume buyers are crucial to our sale's success, and we continue to offer volume bull buyer discounts. Videos of all the bulls are available on our website, www.HagerCattleCompany.com.

We appreciate all our customers who continue to put their trust in the HCC breeding program, and in our family, to be your supplier of Lim-Flex genetics. And if you're new to HCC, we welcome your evaluation of our offering and look forward to working with you to provide genetics that allow you to be profitable in the cattle business. You are welcome to stop by the ranch and view the sale offering at any time. For more information, contact us or an affiliated sale staff listed in the catalog. Thanks for your interest in our program and we look forward to seeing you Tuesday, April 12th at the ranch!

~Austin, Leah Bailee, Pitch, Tripp and Remmi Hager

EPDS AND ADDITIONAL DATA:

All EPDs have been provided by the North American Limousin Foundation and were pulled on March 4, 2022. NALF updates EPDs on a weekly basis, which may cause minor changes to the EPDs presented in this catalog. Yearling weights, scrotal measurements, and ultrasound data will be available by April 1.

Hager Cattle Company is a member of LIMS.

ANNOUNCEMENTS:

Announcements made sale day will take precedence over printed material in catalog.

TRANSPORTATION:

Free delivery in North Dakota and surrounding states on purchases of \$3,000 or greater. Delivery beyond will be done in the most cost efficient manner possible.

GUARANTEE:

All bulls are semen tested and sell with a first breeding season guarantee. If the cattle that you purchase at our sale fail to meet your expectations or go down during the breeding season, we will provide you with a replacement bull or give you full credit towards next year's sale, once we receive the returned bull. We will work together on arrangements to transport the bulls from you to us in the most economical way for both parties. This guarantee expires after the first breeding season.

For more information, contact Austin Hager at 701-626-2345.

Visit HagerCattleCompany.com or follow us on Facebook for videos and updates.

TERMS:

Terms of the sale are cash unless prior credit arrangements are made between buyer and seller. Settlements are to be made immediately after the conclusion of the auction. All cattle sell under the recommended terms and conditions of the North American Limousin Foundation. You may request a copy of those terms from Austin Hager or the sale consultants, or go to www.NALF.org to view online.

HEALTH:

Inforce 3, First Defense, Bovi-Sheild Gold 5, One Shot, 7 Way, Sommus, Dectomax Injectable, Clean-Up. Johnes tested cattle herd since 2012; all bulls selling are from a negative tested dam. Herd health: Dr. Kristie Best - 701-537-0502.

INSURANCE:

Brett Schaefer of Heritage Insurance Services will be on site for the sale to handle all of your insurance needs for your new purchases. Or you may contact Brett at (701) 818-0806 or visit www.HeritageInsServices.com.

SEMEN:

If you are interested in purchasing semen on any Hager Cattle Company sires, contact Austin Hager.

ABSENTEE BIDS:

Mailed or telephone bids will be handled in the most confidential manner. If you are unable to be present to place your bids, please feel free to contact Hager Cattle Company. Individuals will be available on site to handle absentee bids and we would ask that you contact Austin Hager prior to the sale so we can be sure to accommodate your needs.

VOLUME PURCHASES:

Buy 5 or more bulls and receive a 5% discount. Buy 10 or more bulls and receive a 10% discount. \$50 credit per bull if buyer hauls home sale day.

LIABILITY:

Each animal will be the buyer's risk as soon as sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither owner nor sales management can be responsible for accidents, but every effort will be made to provide for the safety and comfort of those attending the sale.

ONLINE BIDDING:

LiveAuctions.tv will provide real time bidding.

Live audio and video will allow buyers to bid on animals just as if they were present at the sale. A buyer's account must be created prior to the sale. Sale day technical support: (712) 294-4731

2021CUSTOMER APPRECIATION AWARD WINNER

The 2021 Hager Cattle Company **Customer Appreciation award** was given to the Haughian family with Badlands Cattle Company of Terry, Montana. The Haughian family have been supporting the HCC program for quite a few years with many herd bull purchases, as well as purchasing a selection of the HCC replacement heifers. They are great people to work with and we thank them for the loyal support. The winner of the 2022 award and the custom Cross Five Cattle Cooler will be announced at the start of this year's sale. We truly value all our customers whether you raise commercial or seedstock cattle, you all keep this dream alive and well.

This bull transmits extra skeletal length, added frame size, and substance of bone. He combines phenomenal growth genetics into a powerful package. This high percentage Lim-Flex bull proves value with many EPD traits at the top of the breed: 1% for DOC, 2% for ST, CW; 3% for GEST, YW; 4% for TM; 5% for SC; 10% for WW; 20% for MK, CEM; 30% for \$MTI. If you're in the market for high growth, high performance, time tested proven genetics look no further.

USING LIMOUSIN & LIM-FLEX EPDS

PERFORMANCE EPDS

GEST Stands for gestation length in days and is related to birth weight, calving ease, and calving interval. A lower or more minus number represents a shorter gestation length.

CED Stands for calving ease direct and is important when choosing sires to produce calves born easily. The higher the number the better.

BW Expresses the difference in birth weight on the progeny of the bulls being compared. Lower birth weight EPDs indicate lighter progeny birth weights.

WW Expresses the difference in pounds at 205 days on the progeny of the bull being compared.

YW Expresses the difference in pounds at 365 days on the progeny of the bull being compared.

MK Stands for milking ability and predicts differences in weaning weights from daughter's calves due to genes inherited for milk.

TM Stands for total maternal and is an index that combines growth and milk information as a prediction of the weaning weight performance of calves from a sire's daughters. A greater number means heavier weaning weights.

CEM Stands for calving ease maternal and is important for choosing sires that produce replacement females that give birth to their first calf easily. The higher the number the better.

SC Stands for scrotal circumference and compares the difference expected in sons of the animal. Scrotal EPDs are a good indicator of age of puberty of both the sons and the daughters of the animal.

STAY or ST Stands for stayability and is an indicator of a bull's daughters staying productive within a herd to at least six years of age. The higher the stayability the more reproductive longevity.

DOC Stands for docility and is a predictor for animal behavior. A higher value represents genetics for calmer behavior.

CARCASS EPDS

YG Indicates genetic differences for yield grade and cutability of offspring. Lower values are more favorable.

CW Expresses the difference in pounds of carcass weight.

REA Expresses the difference in square inches of ribeye area. Larger values indicate larger ribeye areas.

MB Expresses the difference in the amount of intramuscular fat in the ribeye. Higher values are favored.

\$MTI The mainstream terminal index takes genetics and economics into account to rank animals in terms of expected profit per carcass produced from weaning to mainstream market endpoints of yield grade 1s and 2s and Select to low-Choice quality grades.

GEST CED BW WW YW MK TM CEM SC Stay Doc YG CW REA MB \$MTI -5 13 -0.1 66 105 26 59 8 1.25 14 11 -0.12 24 0.54 0.33 63.04 Stout growth with a 205-day weight of 737 lbs. (ratio 106). 8 strong EPD traits in the 35% or greater of the breed: 4% for CEM; 10% for MK; 20% for CEM, MB; 25% for CED, SC, ST; 30% for BW, \$MTI; 35% for TM. Phenotypically this bull transmits extra muscle shape and natural thickness. Even though this is the last lot on the sale he still combines light to moderate birth, respectable growth, high maternal and high marbling genetics that are represented throughout the entire offering and our breeding program at HCC.
